

ORDINARY MAGIC

Rituals for Grief and Gratitude

SUNDAY, NOVEMBER 17

Willow Farm Contemplative Center

9:30 am to 4:30 pm

Events change us. Rituals transform us.

All lives have times of deep gratitude and times of deep grief.
Ritual brings power and shape to those times.

In this day-long workshop, we'll explore the substance of time-honored rituals and the alchemical power of personal ritual. Using storytelling, art, a labyrinth walk, and personal symbols, you will understand the nature, purpose and effect of ritual as an approach to life, and learn to create personal forms that you can use in any situation at any time.

Kim Mooney, Thanatologist, End-of-Life Educator and Consultant, has worked in the end-of-life and grief education field for over 28 years with hospice and independently, most recently receiving the international Association for Death Education & Counseling's 2018 Community Educator Award. She is the Founder of Practically Dying, an educational and support organization whose mission is to help us remember how to engage birth, life and death as opportunities to live without hesitation and die without regret.

\$90 per person
